# Handy 100mm Digital Caliper debut

AMDC-100

Smooth movement and constant repeatable readings.

This steel digital caliper delivers excellent accuracy and features jaws that measure inside diameter and outside diameter from 0-100mm. The caliper has a resolution of 0.01mm, and has a zero set button, making easy work of relative measurements. Smooth movement and lock make it easy adjust to your desired measurement and lock it in to transfer that measurement to other materials. Assembled in China. A test battery (LR44) is included.
