AMC ULTRA SCRATCH REMOVER

AMC Ultra Scratch Remover

AMC ULTRA SCRATCH REMOVER

Best solution for removing small scratches. Just apply it and wipe with soft clothes. Ultra-fine abrasive gives high luster finish just like a new. Very popular in the watch industry and often used for polishing watch windshields and watch bands. Suitable for the plastic, resin, metal, and acrylic glass. It also works well for soft materials like plastic as well as precious metal, gold, silver, PT and stainless.

Item Code	601-117
Model	USR-5
Contents	28 g
Use for	Metal, Plastic, Resin etc
Made in Japan	

The best solution for removing small scratches!

USR-5 includes ultra-fine abrasives and is suitable for polishing the plastic, resin, metal, and acrylic glass. It is very popular in the watch industry and is often used for polishing watch windshields and watch bands. It works well for soft materials like plastic as well as precious metal, gold, silver, PT, and stainless.

## How to Use

Just put a little amount and wipe with a soft cloth such as chamois leather.  
The cloth gets dark when you are polishing due to shaving off the metal surface.

## Result:

Polish it for quite a while, and it's amazingly shiny!  
The belt was originally very shiny and I could bring it close to its original condition!
